GitHub: <https://github.com/cdfishe1> | LinkedIn: <https://www.linkedin.com/in/cdfishe1/>

Portfolio: <https://cdfishe1.github.io/portfolio/>

Former librarian and philosophy instructor seeking a frontend engineering position using HTML5, CSS3, and JS6. Experience collaborating in Git, using Agile methodology. Always seeking to broaden my skills and experience.

TECHNICAL SKILLS

Languages: HTML5, CSS3, Javascript (ES6), jQuery

Frameworks: Bootstrap, Pure.css

Programs: VSCode, Git, GitHub

PROJECTS

Show Match

Repo: <https://github.com/cdfishe1/show-match>

Deployed Site: <https://cdfishe1.github.io/show-match/>

Role: Team Lead, principal JavaScript architect

Summary: Show Match uses The Movie Database and Youtube apis to connect users with their favorite movies and tv shows.

Weather App

Repo: <https://github.com/cdfishe1/weather-app>

Deployed Site: <https://cdfishe1.github.io/weather-app/>

Role: Solo developer

Summary: This weather dashboard uses the Open Weather api to connect a user's search with the current and five day forecast for a city.

Workday Scheduler

Repo: <https://github.com/cdfishe1/workday-scheduler>

Deployed Site: <https://cdfishe1.github.io/workday-scheduler/>

Role: Sole developer

Summary: This workday scheduler uses jQuery, Moment.js, and local storage in order to store hourly events for a given day.

PROFESSIONAL EXPERIENCE

Cook County Health Foundation, Chicago, IL

8/2019 – Present

Development Assistant

- Created and implemented procedures for Salsa CRM and Salsa Engage digital media platforms.
- Planned the training and check-in process for the 2019 Annual Gala with over 400 guests.

Stay at Home Parent, Evanston, IL

6/2013 – 8/2019

- Provided primary child care while refining patience, task flexibility, and a sense of humor.

University of Akron Bierce Library, Akron, OH

12/2011 – 6/2013

Head, Access Services

- Provided leadership to the Access Services department through the supervision of seven full time and 30-40 student workers.
- Brought student employee budget under control after years of overspending.
- Developed and initiated department wide planning for an overhaul of the department's student employee hiring, training, and management system.
- Developed and initiated a formal process analysis of document delivery systems to reduce redundancies and errors.

Loyola University of Chicago Law Library, Chicago, IL

9/2000 – 11/2011

Assistant Director for Access Services

- Provided leadership to the Access Services department through the supervision of three full time and 12-15 student workers.
- Served as web master of the Law Library's website, creating the design, implementation, and maintenance through two major versions.
- Coordinated with OCLC, Law School Computing Services, and the University Libraries to initiate ILLiad functionality to the Law Library's document delivery services.
- Digitalized Law School faculty exams, making them accessible through WestLaw's TWEN product for student's easy retrieval and study.
- Analyzed data gathered from a library space project to develop the popular Law Library Living Room as a casual space for students to study, meet, and browse popular magazines, newspapers, and legal periodicals.
